Drs Coert Visser, MMC, NOAM, The Netherlands  
Prof David E Weber, Ph.D., Associate Professor, Communication Studies, University of North Carolina Wilmington, USA

## **Instructions for Contributors:**

*InterAction* publishes research papers in the area of SF work in organisations. There may also be one paper per edition on other applications of SF. Papers should be submitted in the APA-6 style of formatting and referencing – a good guide to this can be found at [www.apastyle.org](http://www.apastyle.org). Papers should be original work and not have appeared in other printed publications. Submissions will be peer reviewed by members of the editorial board and/or members of the editorial advisory board. If the paper is accepted for publication, the revisions will be sent back to the author who will produce the final version of the text for publication.

We also welcome book reviews, letters and opinion pieces.

Articles should normally be between 1,500 and 3,500 words in length. Shorter submissions will be considered for inclusion. Longer articles may be accepted at the discretion of the editors. Submissions should be received at least three months prior to publication (i.e. February for May and August for November).

Spelling should be anglicised, with -ise endings and English spelling of words such as honour, colour and so on. Solution focus, solutions focus, Solution-Focus etc. should all be abbreviated to SF after the first mention. If in doubt, don't capitalise other terms.

The process for acceptance of a peer-reviewed article is as follows:

- the author(s) send in an article for review by February for the May issue and August for the November issue
- they receive feedback on whether the article is generally suitable for the journal or not
- if the article is suitable, it is checked for APA-6 compliance. If the article is not in APA-6 format, it is returned to the author(s) who re-format the article within a week
- after a suitably formatted article has been received, it is sent to two peer reviewers. Submissions will be peer reviewed by members of the editorial board and/or members of the editorial advisory board
- if the paper is accepted for publication by the reviewers, revisions will be sent back to the author who will produce the final version of the text for publication
- the author(s) should also include a short text on what was amended in the second version of the texts in reaction to the comments of the reviewers

Each submission should be accompanied by a short biographical note for each author of one or two sentences. A mailing address for correspondence must be included on the first page.

Books, videos or materials for review should be sent to the book review editor, Mark McKergow, SF Work, 15 St George's Avenue, London N7 0HB, UK.

Contributors must obtain any necessary permissions and pay any fees for the use of other materials already subject to copyright. Contributors therefore undertake that their material is not in violation of any copyright and undertake to indemnify SFCT for any loss occasioned in the consequence of any breach of this undertaking.
